Youth in Social Media

With financial support from
the Daphne III Programme of
the European Union

This publication has been produced with the financial support of the Daphne III Programme of the European Commission. The contents of this publication are the sole responsibility of I.O.R. consortium and can in no way be taken to reflect the views of the European Commission.

I.O.R. – Impact of Relationship: JUST/2011-2012/DAP/AG/3255

PROMOTING A SAFE AND RESPONSIBLE USE
OF SOCIAL MEDIA

Impact of Relationship Youth in Social Media

The overall project objective is the empowerment of youth aged 10-17 in their use of social networks and raising their awareness for the potential negative impact of social networks. In this way it aims to contribute to the psychophysical well-being of youngsters via risk prevention activities.

This is done by a coordinated campaign targeting young people by using the communication channels they know and use. In 27 EU countries specific pages on the social networks were created, are animated and kept active for 12 months. The production of an animated film is in progress. Youth participants are involved in discussing violence and abuse situations possibly linked with incorrect use of social networks.

Get further information and regular updates at www.ior-project.eu or visit the social media pages of your country.

Facts & Figures

38% of 9 -12 year olds and 77% of 13-16 year olds have a social network profile.

33% of children and teenagers between 9 and 16 years were bothered or upset by inappropriate material online

12% were bothered or upset meeting online contacts offline

80% were fairly or very upset by cyberbullying.
